E-Learning Content

The ABCSG E-Learning on ADCs in Breast Cancer Treatment is a joint project of ABCSG and Daiichi Sankyo. In this 1,5 hour on demand continuing education format which will be available in the members area from end of September on, you will learn about the advancements with next generation ADCs, the successful management of adverse events as well as current standards and future perspectives in HER2 treatment.

Chair: Michael Gnant (ABCSG President – Vienna, Austria)

Lecture 1

Breaking Barriers: Advancements with Next-Generation ADCs - the DESTINY trials

Javier Cortes (Ramón y Cajal University Hospital, Madrid, Spain)

Lecture 2

ADCs in Breast Cancer Treatment & Successful Management of Adverse Events

Gabriel Rinnerthaler (ABCSG Expert, University Hospital Salzburg, Austria)

Lecture 3

HER2+ and Beyond: Navigating Current Standards and Future Perspectives

Marija Balic (ABCSG Expert, University Hospital Graz, Austria)

Discussion

Virtual panel discussion

Host: Michael Gnant (ABCSG President – Vienna, Austria)

Virtual panel discussion with all speakers &

Georg Pfeiler (ABCSG Expert, University Hospital Vienna, Austria)

Günther Steger (ABCSG Expert, University Hospital Vienna, Austria)

Kathrin Strasser-Weippl (ABCSG Expert, Clinic Ottakring Vienna, Austria)

Quiz

Members of the Austrian Medical Chamber can acquire continuing medical education credits („DFP-Punkte“) if they pass the quiz after the lectures.

Online Portal

Access the E-Learning via the ABCSG Members Area (Health Care Professional only). If you are interested and not registered yet, you can register via abcs.org/registration. Otherwise, please log in via abcs.org/members-only.
